# UPster K-M250 without drying zone

#### Rack type dishwashing machine - a modular solution.

- Maximum cleaning quality in a compact format: 3 standard speeds incorporated (with the possibility to speed up or slow down each speed) to fine tune the washing performance to the customer needs.
- Hinged side-opening doors enable installation under low ceilings whilst still maintaining ease of cleaning.
- All models can have the direction reversed on-site, whether from right to left or left to right.
- Programmable touch screen control panel with blue tooth connectivity.
- Increased opening height of more than 500mm to larger items such as gastronorm containers, larger pots & pans, canteen trays etc.
- Fully 304/316 AISI stainless steel construction with complete insulation.

K-M250 w/o dryer

#### Execution for: Saudi Arabia Rack type dishwashing machine Working direction: left - right Power supply: 3N PE 380V 60Hz Heating: Electric Water connection: Soft - warm water 25 - 49°C Total connected load: 34.5 kW
